Subject: TAPR-ORG Discussion List Welcome Message
Date: Thu, 24 Feb 2000 18:28:14 -0600

****
* PLEASE SAVE THIS WELCOME MESSAGE! *
****

As Greg mentioned in his column (Jan 2000 PSR), the TAPR Board has
realized
from recent email discussions that we need to provide a better forum for
communicating with members about organizational issues.

To do that, we're creating a new mailing list -- tapr-org@lists.tapr.org
-- that will be open to all TAPR members, and will include all the Board
members and officers as subscribers. Anyone may join the list through the
usual means of sending mail to the Lyris listproc address, or using the
form on www.tapr.org.

The purpose of this list is to improve communications between TAPR
and its members. This will be the place to raise and discuss
organizational issues. To improve the signal-to-noise ratio on our
technical mailing lists, we ask that all discussions about TAPR as an
organization be moved to the tapr-org list.

TAPR's Board members and officers commit to read the messages on this
list, to consider them, and to respond as appropriate. However, both
to maintain some degree of order, and to recognize the fact that, like
you, TAPR's leadership are volunteers with limited time to spend on
their hobby, there are a few guidelines we ask you to observe:

1. To reiterate: we do take this seriously, and all the Board members
and officers will remain subscribed to the list and read the messages
there on a regular basis.

2. Although we're not limiting list access to TAPR members (mainly
because there's no practical way to do so), this list is intended for
members to communicate with their organization. Members will be much
more likely to receive responses than non-members.

3. Board members and officers should be presumed to be speaking for
themselves; unless they specifically say so, don't assume that they are
speaking for TAPR. Particularly on controversial issues, it may take
time for the Board to discuss an issue and reach a consensus on a
reply. As a result, if you ask for an "official" reply, be prepared to
wait, probably for a week or more, so that our decision-making process

can run its course.

4. Finally, not every message may get a reply. Weighed against our
desire to be open and communicative is a need to use our TAPR time to
best advantage. It's not the best use of our time to get bogged down
with holy wars, questions that are obviously framed to provoke rather
than discuss, and postings that aren't relevant to TAPR's activities,
and we're not likely to reply to such messages. There are also a few
things, such as pending commercial deals, that may not be suitable for
public discussion because of confidentiality requirements.

To post messages to the tapr-org list, send email to:

tapr-org @lists.tapr.org

To unsubscribe from this mailing list, surf to:

http://www.tapr.org/cgi-bin/lyris.pl?enter= tapr-org

or send email to:

lyris@lists.tapr.org

with the following line in the body of the message:

unsub tapr-org

The host of this list is:

Tucson Amateur Packet Radio (TAPR)
tapr@tapr.org
http://www.tapr.org
8987-309 E Tanque Verde Rd. #337, Tucson, AZ 85749-9399,
phone 940-383-0000, fax 940-566-2544

Just so that you have all the commands neatly contained in one place,
here is just about everything you will need to know. Note that this list
is running on a Lyris server. Please be aware that the commands might be
different from those that you are used to using on other list servers.
(For more information on Lyris, see <http://www.lyris.com/>.)

1. First of all, almost everything that you might need to do on the
server is most easily and effectively performed via Lyris's Web
interface at <http://www.tapr.org/cgi-bin/lyris.pl>.

2. In case you do not have Web access, here are some key commands; in all
cases, the default server address is: <lyris@lists.tapr.org>. Other
addresses are shown where appropriate. Note that commands may be placed
in either the subject line or in the body of the message:

SUBSCRIBING:
subscribe tapr-org your_name
join tapr-org your_name
alternate address: join-tapr-org@lists.tapr.org

UNSUBSCRIBING:
unsubscribe tapr-org
leave tapr-org
alternate address: leave-tapr-org@lists.tapr.org

SETTING MEMBERSHIP TO DIGEST MODE:
set tapr-org digest

SETTING MEMBERSHIP TO INDEX MODE:
set tapr-org index

SETTING MEMBERSHIP TO DISCUSSION MODE:
set tapr-org mail

TEMPORARILY SUSPENDING MAIL FROM THE LIST:
set tapr-org nomail

RESUMING MAIL FROM THE LIST:
(command depends on your preferred mode)

set tapr-org mail
set tapr-org digest
set tapr-org index

ACKNOWLEDGMENT:
set tapr-org ack
(sends you a confirmation message when your posts are sent)
set tapr-org noack
(no confirmation message when posts are distributed)

RECEIVING COPIES OF YOUR OWN POSTS:
set tapr-org repro
(receive copies of your own posts)
set tapr-org norepro
(do not receive copies of your own posts)

SETTING YOUR PASSWORD:
set tapr-org pw=mypassword
(where "mypassword" is the password you wish to set)

DETERMINING YOUR MEMBERSHIP SETTINGS:
query tapr-org

RETRIEVING THE CURRENT VERSION OF THIS DOCUMENT:
get wxsig hello

MORE INFORMATION ON LYRIS'S COMMANDS:
help

POSTING TO THE LIST:
You must be a subscriber to post messages. Sending
mail to this address will distribute it to all the
members of the mailing list: tapr-org @lists.tapr.org

3. CHANGING YOUR SETTINGS/ADDRESS VIA THE WEB INTERFACE: To do this, go
to <http://www.tapr.org/cgi-bin/lyris.pl> and click the link in the
"Change Your Settings" section. You'll need to enter your e-mail
address and password (if you chose one) to continue.

(If you've forgotten your password, you can type in your e-mail address
in the field at the bottom of the page and click "Get password" to
request Lyris to e-mail your password to you.)

At the following page, you can read messages, post a message, adjust
your settings, or unsubscribe. From the settings page, you can change
your status (MAIL, DIGEST, INDEX, or NOMAIL), choose whether or not to
see your own messages, and choose whether or not you want to receive a
separate acknowledgement via e-mail when one of your messages is posted
to the list, You can also change your e-mail address if you need to.
When you change your settings, make sure you click the "Save" button at
the bottom of the page.

4. ARCHIVES: The tapr-org SIG archives are available on the Web, at the
following URL: <http://www.tapr.org/sigf.html>

5. BOUNCED MAIL: One of the key features of Lyris is its ability to handle
mail bounces transparently to the list owner; as such, bounced mail
will be handled primarily by the Lyris list server.

6. POSTS/REPLIES FROM DIGEST USERS: You *must* change the Subject: line
when replying to a digest; all posts with "tapr-org DIGEST" in the
Subject: line will be rejected by the server (you will receive a
"rejection letter" when this happens).

Hello:

At what date, time and location will the TAPR Board meeting me held in Dayton this year?

Will this be a open meeting?

Thanks

Jeff wb8wka

Sorry about the empty message I just sent... hit the wrong button by
mistake.

The board meeting will be held on Thursday evening at the Best Western
motel at Needmore Road and I75 (used to be the Radisson, and then was
something else last year) and is expected to be open to the public (as
we've noted before, there may be items which require a closed session,
but I'm not aware of any of those at this time).

I believe the meeting will start at 7:00PM; if that's incorrect, I'll
post another message to the tapr-org list with the correct time. I
don't know the room number yet, but we will leave a message at the
front desk with that information for anyone who wants to attend.

Are any updates available from the Dayton BOD/membership meeting this year?

I didn't make it to Dayton this year, but hear Greg resigned as president? Don't see any announcements on the TAPR site although digging down into the site I see someone updated the president to now be "Vacant".

Will the "Conferences" section on the TAPR site cover this? (real audio). If not, it might be prudent to give a update in the spirit of what Greg started in the last PSR.

Thanks

-Jeff wb8wka

Since I'm not the lucky person(s) charged with converting conferences to realaudio, or publishing the PSR, I won't make any promises. However, I will comment that I'm sure those responsible for those tasks had a week similar to mine. I spent it getting caught up on all the things that got delayed or shoved aside while getting ready and attending HAMVENTION. I really didn't want to think about TAPR or ham radio ... or have time. I still have tall grass to mow. Anyhow what I'm trying to say is things will come to pass as volunteer's schedules permit.

Sorry there hasn't been an update posted to the web site yet -- we are an
organization of volunteers, exemplified by the fact that several of us had
real-life matters to attend to right after Hamvention (I'm in the middle of
a business trip myself, and had to leave Sunday afternoon).

There will be an update in the next PSR, and on the web page as well, but it
may be another week or two before that happens. There are no plans to
make RealAudio of the board meetings available (they are not recorded),
though that's an idea I think would be worthy of consideration.

The short story about Greg is that he resigned due to the time pressure
he is under to finish his Ph.d dissertation. He is remaining on the
Board. We chose not to elect a new President at Dayton, but rather to
wait for the normal election that will occur at the annual Board meeting
at the DCC. In the interim, as VP I am acting as President, but am
serving mainly in a caretaker role, and working with several other Board
members to figure out how best to manage TAPR going forward.

73,
John

These are more general comments, and should be taken as such. Also
copying them to taprorg.

I think you lost the "message" in all the postings so far. This "mis-understanding"
seems to be ongoing.

> The standard phrase is a "membership supported research and development
> organization".

Meaningless as most "standard phrases" go.

> What we do is assist amateurs that wish to do some sort of
> developmental effort pertaining to digital communications.

OK, that is better. But, it might be helpful, if you could explain in detail what
this is. I don't ever recall this being explained in detail in the PSR. I know the
times I have asked about it privately, the explanation wasn't much better then
this. Very vague.

> In the 5 years or so I have been associated with TAPR, a single spread

> on the project.

Hmmm.... that's not true. What about Randy Roberts offer in Feb of 1997?

See: http://www.tapr.org/tapr/list-archive/ss/9702/msg00004.html

Now.... at the risk of being compared to space aliens and Elvis again., what
many don't know is the TAPR SS radio was a "black" project at or very
near that time. Meaning the project was funded, but not yet announced to the
membership (I had been told this firsthand by one of the BOD members at the
time). More then a few of the membership got upset when this was discovered.

> If any of you have something you want to work on, ss or otherwise, and
> are willing to do the work but need some sort of assistance, then please
> consider contacting us.

I know three times I offered to get a group buy together
with little/no help from TAPR for commercial SS radios.

The first in July of 96 was for the FreeWave radio, which I later found out
TAPR was talking with, and then I was told to stand down. See:

http://www.tapr.org/tapr/list-archive/ss/9607/msg00011.html

The second in Jan of 1997 after TAPR tanked the FreeWave deal:

http://www.tapr.org/tapr/list-archive/ss/9701/msg00172.html

And the third time just this year:

http://www.tapr.org/tapr/list-archive/ss/0001/msg00033.html

Now, the second time I never heard back from anyone from TAPR.... so I just
went ahead and did it myself. What ended up happening is I got some people
upset within TAPR as unknown to me they where doing the same thing. I was
told to stop.

So, the third time I wanted to make sure this didn't happen again, so I asked
for some specific constraints. In private mail, a BOD member keep telling me
he would get back to me, but never did. I eventually gave up. I'm not sure how
relevant this is anymore, since these WLAN cards are commodity items anyways.
None the less, still it would have been good to get some input.

I can go on with other examples, but my point is that its just not as simple as
volunteering or asking for help....

BTW, these people that made these disparaging remarks about TAPR, they are not
TAPR members, at least the two of the three I wrote off SIG. Yet they *were* TAPR
members. I just don't think they should be dismissed this quickly.... yes there is nothing
that can be done about the past, but what about the future? Exam the successes and
failures of past years, make real efforts to get new blood within the organization (term
limits?), and reach out to other organizations(what about my Nord-Link question Steve?).

I'd like to see TAPR return to its distant roots....a organization that is more a peer based
R&D organization. Then, and only then, will the statement "membership supported research
and development organization" not have a hollow meaning. We all need to work together
and the TAPR membership *can* contribute alot to this.

Give it some thought. You and the board are now in a unique position to change the course.
Take advantage of it.

73

Again, please consider the broader issues here even though some
"old news" specifics (as examples) where listed.

HOLD ON now. Your now admitting there was indeed another offer!! That's
what I was saying. The fellow was handing you a design that was quite far
along. His clauses seemed quite reasonable to me and they were publicly
stated (we still don't know what the clauses where on the TAPR SS radio) I
think the real issue is he was a TAPR outsider *and* he just wanted to release his
design for amateur use (i.e. no Part 15 commercial sales). It was also clear to me
their were some amount of friction between him and one of the TAPR SS team members.

Of course that's my opinion based on observation.... And I'm not even saying this
declining of his offer (through neglect) was a bad choice at the time, its just
disingenuous of you to state that no-one has come forward
to TAPR with a spread spectrum project.

As a member of the BOD, your in a better position that answer that question then me.

All I know for a fact is that TAPR officers and board members organized a design team
for "their" spread spectrum project where as Randy was left to his own resources to
assemble one. This is fairly well documented so no need for me to imply anything
there as the timelines speak for themselves. And here we are today. Can't
change the past, but we can change the future..... only if we are willing.

As a TAPR BOD member, are you willing?

> I>I know three times I offered to get a group buy together

I know about FreeWave (and I also know both sides of the story on that one)
.... what other ones fell through?

> Generally, the manufacturers are uninterested in
> dealing with low volume purchases (and even if every member of TAPR buys
> 2, the manufacturers consider this low volume), especially when the
> equipment is to be used for other than its intended purpose.

Since your cutting and pasting Greg's original message, why don't you just cut and
paste my response to this blanket claim? What your really saying
here is TAPR is not interested in doing a group purchase. Which is FINE,
just say that instead of whining how no-one volunteers.

> >
> >I can go on with other examples, but my point is that its just not as
> >simple as
> >volunteering or asking for help....
> >
> When such negotations are being attempted, they can be very sensitive.

Your making a mountain out of a mole-hill. Like I said, go back and read
the message you where cutting and pasting (here is my earlier response to
these defeatist type comments)

http://www.tapr.org/tapr/list-archive/ss/0001/msg00033.html

The point is, if there is a will, there is a way. And the point I believe
these modern day posters was raising is there was no will.

> I too am sorry none of these
> worked out, but the attempts were made to the best of TAPR's ability. I'm
> sorry if you feel that you were left out of the process.

Sorry? Thanks, but I'm OK. Didn't stop me from buying FreeWave radios (10 so far)
or Wavelans or Proxims or... Not the point. At the risk of displaying alot of
bravado, I'm sorry for TAPR for not taking advantage of the skills of their
membership. I'm confident I could have made a deal go through.

Its my _opinion_ that TAPR avoided/suppressed group buys so as not
to dilute the user base for the TAPR, now Dandin, SS radio. From a business
perspective, I can understand how TAPR would have done this as it would have
diluted there then as yet unannounced TAPR SS radios user base. Yet when you
and others start hooting off how you don't get enough volunteers, I need to point
out its not always as simple as volunteering.

Which was my modern day point.

> >I'd like to see TAPR return to its distant roots....a organization that is

> To people that are not in that group it may
> sound like elitism,

You have had four people in as many days question this, and it appears all four
have done SS projects on their own. Yet, all four seem to have a problem
with the way TAPR has done things in the past.

http://www.qsl.net/n9zia/
http://www.gbonline.com/~multiplx/wireless/
http://www.qsl.net/kb9mwr/projects/wireless/plan.html
http://www.geocities.com/SiliconValley/Monitor/2254/radio.html

Or you just don't care?

> It doesn't matter how great a need is, or how many people want to buy a
> product, unless there are volunteers that have the skills, time, and
> drive to produce it, TAPR can't do it. Wishing won't change that, only a
> few million will.

What I am "wishing" for won't take a few million. Here were some of
my specific suggestions that I will outline clearly so you don't miss
them this time. These are questions specifically for the BOD, which the
BOD can only address

1. What do you think about some sort of term limits for TAPR BOD/Officers?
This is more complicated then it looks, efforts will have to be made to increase the
number of people running for the board. Yet it is doable and will promote diversity
of views within TAPR

2. What do you think about TAPR reaching out to other organizations (my unanswered
NordLink question might be a good place to start)? There really is alot that TAPR,
and its membership, is missing.

3. Better communications with the membership. (The much tauted TAPR-ORG board
has only had one previous posting on it, my question about the Dayton update) I see
you didn't even bother to use it yourself in responding to this message..... better suited
although I suspect the audience would be far less. How many people even know that
the TAPR president resigned in May (that didn't go to Dayton)?

As a TAPR member it disturbs me when I see comments such as Steve Lampereur,
Jack Kerouac, N8xlr and others make. Yet, there is some basis to truth in these. All
these fellows have given up on TAPR, they let their memberships lapse. I've been
a member for 16 years, and hope the organization can return to its roots. Yet when I see
a BOD member so quickly dismiss these concerns, it really bothers me.

This whole "Dandin issue", or more specifically the mindset that allowed it to happen, I
had hoped had gone away. It seems like it still lives on. I hope this changes and now
seemed like a good time in "TAPR history" for the board to take proactive measures to
change the future.

Flame me all you want, but I hope the BOD considers some of the issues at a later date.

-Jeff

ARRL and TAPR 19th Annual
Digital Communications Conference
September 22-24, 2000 - Orlando, Florida

For more information see: http://www.tapr.org/dcc

Information
Mark your calendar and start making plans to attend the year's premier event in digital communications. The 19th Annual ARRL and TAPR Digital Communications Conference will be held September 22-24, 2000, in Orlando, Florida - just minutes from the Orlando International Airport.

The ARRL and TAPR Digital Communications Conference is an international forum for radio amateurs in digital communications, networking, and related technologies to meet, publish their work, and present new ideas and techniques for discussion. Presenters and attendees will have the opportunity to exchange ideas and learn about recent hardware and software advances, theories, experimental results, and practical applications. The Digital Communications Conference is not just for the digital expert, but also for digitally oriented amateurs of all levels of experience.

A Conference for the Beginner as well
The conference is not just for the digital expert. As in years past an entire session strand with beginning, intermediate, and advanced presentations on selected topics in digital communications will be offered. Some of the topics will include: APRS, Satellite Communications, TCP/IP, Digital Radio, Spread Spectrum and other introductory topics. Come to the conference and hear these topics presented by the experts!

Area Attractions
The Orlando Florida area is famous for its attractions and vacation spots. Disney World, Universal Studios, and Sea World (just to name a few) are within 15 minutes of the hotel. Shuttle service from the hotel will be available for a small fee. Cape Canaveral and Cocoa Beach are a 30 minute drive East of the hotel.

Symposia, Seminars and Banquet
Two symposia/seminars will be held which allow those with additional time and interest to make the most of the Conference. For those who may have interest in just one symposium or seminar, registration for the conference is not required to attend these activities. This allows maximum flexibility for those who may want to participate during the Digital Communications Conference, but do not have an entire weekend to devote to the event.

The Fourth APRS National Symposium will be held on Friday and will be moderated by Steve Dimse, K4HG (the developer of javAPRS). It will likely include many APRS software authors, such as Bob Bruninga, WB4APR (the father ofAPRS), Keith Sproul, WU2Z, Mark Sproul, KB2ICI (the developers of MacAPRS and WinAPRS), Brent Hildebrand, KH2Z (the developer of APRSPLUS), Mike Musick, N0QBF (developer of PocketAPRS), and other nationally known APRS leaders. Join this group for the afternoon and evening for in-depth discussions and presentations on the current and future status of APRS. This is a unique opportunity to gain insight into this fast-growing digital aspect of amateur operations that combines computers, packet radio, and GPS (Global Positioning System).

On Saturday night the DCC Banquet will be held. A guest speaker will speak after the banquet and a prize drawing will top the evening. The Grand Prize is a Palm VII Personal Digital Assistant.

The Sunday morning seminar will be focused on PIC development, design, and programming. This five-and-a-half hour seminar will focus on the things you need to know now in order to understand and begin to participate in PIC development.

Co-Hosts
The 2000 ARRL and TAPR Digital Communications Conference local co-hosts will be Lake Monroe Amateur Radio Society (http://www.qsl.net/lmars/),Orange County ARES/RACES(http://evcom.net/~jvoisin/ares.htm), Seminole County ARES/RACES (http://wwww.geocities.com/capecanaveral/launchpad/4773), and Orlando Amateur Radio Club(http://www.oarc.org/).

International Co-Hosts PRUG (Packet Radio User Group of Japan) will be the International co-host for a third year running. PRUG will be hosting an informal social Friday evening before their seminar and symposium is held. Visit http://www.prug.or.jp for more information about PRUG.

Call for Papers
Anyone interested in digital communications is invited to submit a paper for publication in the Conference Proceedings. Presentation at the Conference is not required for publication. Papers are due by August 7th, 2000, and should be submitted to

Maty Weinberg, ARRL
225 Main Street
Newington, CT 06111

or via the Internet to

lweinberg@arrl.org

Information on paper submission guidelines are available on-line at

http://www.tapr.org/dcc

Hotel
Conference presentations, meetings, and seminars will be held at the Orlando Airport Marriott. It is highly recommended that you book your room prior to arriving. A special DCC room rate of $89/single and $89/double per night has been blocked for 50 rooms and is available until September 1st, 2000. Once the 50 rooms have been reserved, room rates will increase. So be sure to book your rooms early! The hotel provides transportation to and from the Orlando International Airport. Please contact the hotel to arrange specific transportation needs.

Orlando Airport Marriott (conference hotel)
7499 Augusta Drive
Orlando, FL 32822
Phone 407-851-9000, Fax 407-857-6211
(http://marriotthotels.com/MCOAP/)

What you can expect at DCC 2000
- A full day of papers and breakouts for the beginner to the advanced
- Two seminars/symposiums
- The fifth annual Student Paper session.
- A banquet with Special Guest Speaker.
- Informal get-togethers throughout the weekend.
- TAPR Membership Meeting
- An event at which the most important new developments in amateur digital communications are announced.
- Digital 'movers and shakers' from all over the world in attendance.

There are few activities where your participation can be so much fun and important! What a great way to share and renew your enthusiasm for digital amateur radio! A get-together with colleagues and bringing each other up to date on your latest work -- all this, and more, for an unforgettable weekend of amateur radio and digital communications. We hope to see you at the ARRL and TAPR Digital Communications Conference on September 22-24, 2000!

Full information on the conference and hotel information can be obtained by contacting:

Tucson Amateur Packet Radio
Phone: (940) 383-0000.
Fax: (940) 566-2544
Email: tapr@tapr.org
Web: http://www.tapr.org

Registration Form
Contact the TAPR office by Phone 940-383-0000, Fax 940-566-2544, or Internet: http://www.tapr.org and tapr@tapr.org to register or for additional information.

Conference Registration includes: Conference Proceedings, Sessions, Meetings, and Lunch on Saturday.

See http://www.tapr.org/dcc for an on-line registration form or text form for mailing or faxing.

A registration packet will be mailed in September upon receipt of registration form and payment.

ARRL and TAPR 19th Annual
Digital Communications Conference
September 22-24, 2000 - Orlando, Florida

For more information see: http://www.tapr.org/dcc

Information
Mark your calendar and start making plans to attend the year's premier
event in digital communications. The 19th Annual ARRL and TAPR
Digital Communications Conference will be held September 22-24, 2000,
in Orlando, Florida - just minutes from the Orlando International
Airport.

The ARRL and TAPR Digital Communications Conference is an
international forum for radio amateurs in digital communications,
networking, and related technologies to meet, publish their work, and
present new ideas and techniques for discussion. Presenters and
attendees will have the opportunity to exchange ideas and learn about
recent hardware and software advances, theories, experimental results,
and practical applications. The Digital Communications Conference is
not just for the digital expert, but also for digitally oriented
amateurs of all levels of experience.

A Conference for the Beginner as well
The conference is not just for the digital expert. As in years past
an entire session strand with beginning, intermediate, and advanced
presentations on selected topics in digital communications will be
offered. Some of the topics will include: APRS, Satellite
Communications, TCP/IP, Digital Radio, Spread Spectrum and other
introductory topics. Come to the conference and hear these topics
presented by the experts!

Area Attractions
The Orlando Florida area is famous for its attractions and vacation
spots. Disney World, Universal Studios, and Sea World (just to name a
few) are within 15 minutes of the hotel. Shuttle service from the
hotel will be available for a small fee. Cape Canaveral and Cocoa
Beach are a 30 minute drive East of the hotel.

Symposia, Seminars and Banquet
Two symposia/seminars will be held which allow those with additional
time and interest to make the most of the Conference. For those who
may have interest in just one symposium or seminar, registration for
the conference is not required to attend these activities. This allows
maximum flexibility for those who may want to participate during the
Digital Communications Conference, but do not have an entire weekend
to devote to the event.

The Fourth APRS National Symposium will be held on Friday and will be moderated by Steve Dimse, K4HG (the developer of javAPRS). It will likely include many APRS software authors, such as Bob Bruninga, WB4APR (the father ofAPRS), Keith Sproul, WU2Z, Mark Sproul, KB2ICI (the developers of MacAPRS and WinAPRS), Brent Hildebrand, KH2Z (the developer of APRSPLUS), Mike Musick, N0QBF (developer of PocketAPRS), and other nationally known APRS leaders. Join this group for the afternoon and evening for in-depth discussions and presentations on the current and future status of APRS. This is a unique opportunity to gain insight into this fast-growing digital aspect of amateur operations that combines computers, packet radio, and GPS (Global Positioning System).

On Saturday night the DCC Banquet will be held. A guest speaker will speak after the banquet and a prize drawing will top the evening. The Grand Prize is a Palm VII Personal Digital Assistant.

The Sunday morning seminar will be focused on PIC development, design, and programming. This five-and-a-half hour seminar will focus on the things you need to know now in order to understand and begin to participate in PIC development.

Co-Hosts
The 2000 ARRL and TAPR Digital Communications Conference local co-hosts will be Lake Monroe Amateur Radio Society (http://www.qsl.net/lmars/),Orange County ARES/RACES(http://evcom.net/~jvoisin/ares.htm), Seminole County ARES/RACES (http://wwww.geocities.com/capecanaveral/launchpad/4773), and Orlando Amateur Radio Club(http://www.oarc.org/).

International Co-Hosts PRUG (Packet Radio User Group of Japan) will be the International co-host for a third year running. PRUG will be hosting an informal social Friday evening before their seminar and symposium is held. Visit http://www.prug.or.jp for more information about PRUG.

Call for Papers
Anyone interested in digital communications is invited to submit a paper for publication in the Conference Proceedings. Presentation at the Conference is not required for publication. Papers are due by August 7th, 2000, and should be submitted to

Maty Weinberg, ARRL
225 Main Street
Newington, CT 06111

or via the Internet to

lweinberg@arrl.org

Information on paper submission guidelines are available on-line at

http://www.tapr.org/dcc

Hotel
Conference presentations, meetings, and seminars will be held at the Orlando Airport Marriott. It is highly recommended that you book your room prior to arriving. A special DCC room rate of $89/single and $89/double per night has been blocked for 50 rooms and is available until September 1st, 2000. Once the 50 rooms have been reserved, room rates will increase. So be sure to book your rooms early! The hotel provides transportation to and from the Orlando International Airport. Please contact the hotel to arrange specific transportation needs.

Orlando Airport Marriott (conference hotel)
7499 Augusta Drive
Orlando, FL 32822
Phone 407-851-9000, Fax 407-857-6211
(http://marriotthotels.com/MCOAP/)

What you can expect at DCC 2000
- A full day of papers and breakouts for the beginner to the advanced
- Two seminars/symposiums
- The fifth annual Student Paper session.
- A banquet with Special Guest Speaker.
- Informal get-togethers throughout the weekend.
- TAPR Membership Meeting

- An event at which the most important new developments in amateur
digital communications are announced.
- Digital 'movers and shakers' from all over the world in attendance.

There are few activities where your participation can be so much fun
and important! What a great way to share and renew your enthusiasm for
digital amateur radio! A get-together with colleagues and bringing
each other up to date on your latest work -- all this, and more, for
an unforgettable weekend of amateur radio and digital communications.
We hope to see you at the ARRL and TAPR Digital Communications
Conference on September 22-24, 2000!

Full information on the conference and hotel information can be
obtained by contacting:

Tucson Amateur Packet Radio
Phone: (940) 383-0000.
Fax: (940) 566-2544
Email: tapr@tapr.org
Web: http://www.tapr.org

Registration Form
Contact the TAPR office by Phone 940-383-0000, Fax 940-566-2544, or
Internet: http://www.tapr.org and tapr@tapr.org to register or for
additional information.

Conference Registration includes: Conference Proceedings, Sessions,
Meetings, and Lunch on Saturday.

See http://www.tapr.org/dcc for an on-line registration form or
text form for mailing or faxing.

A registration packet will be mailed in September upon receipt of
registration form and payment.

Anyone ever get a chance to reduce the Dayton event to real audio?

I'd like to be able to see/hear it before the DCC. I can give it a try if its in
a format that I support (assume you recorded on cassette and it needs to be
spooled into real audio). I'll want to listen to it anyways, so no big deal to
spool it into real audio format as long as one of you can loan me the software.

(in other words, if someone can give me a idea what needs to be done, I am
volunteering to do it).

Will the BOD meeting at the DCC be open to observation by the membership?
If so, where and when?

Thanks

Jeff

I'm not sure what Greg has had a chance to do with the Dayton audio. I'll
follow up with him.

The board meeting at DCC will be open to the public with the possible
exception of the need to go into closed session to deal with personnel or
commercially sensitive topics. At the moment, I'm not aware of anything
on the agenda that would require that. The meeting will be held on Friday
morning at the DCC hotel. The exact starting time and room number haven't
been set yet, but that info will be available at the hotel -- we'll make
sure the front desk knows and can direct people.

John N8UR

FOR IMMEDIATE RELEASE

TAPR Elects Officers at 19th Annual Digital Communications Conference

John Ackermann, N8UR, was elected the new president of TAPR at the 19th ARRL/TAPR Digital Communications Conference held in Orlando September 21-24.

135 hams, including a dozen from outside the US, attended the annual event, which includes presentation of technical papers, hands-on demonstrations, and beginner's sessions. Over 100 people attended Friday afternoon's APRS seminar, and 70 were present for a technical symposium on programming PIC chips held Sunday morning.

Ackermann succeeds Greg Jones, WD5IVD, who had served as president since 1993, with Steve Bible, N7HPR, replacing Ackermann as vice president. Bob Hanson, N2GDE, will continue to serve as secretary, and Jim Neely, WA5LHS, remains treasurer. The elections were held at TAPR's annual board meeting, held in conjunction with the DCC.

"Greg Jones led TAPR through a period of growth and innovation," Ackermann said. "On his watch, we brought significant new products to market, including the DSP-93 digital signal processing unit, Totally Accurate Clock, and Mic-E and Pic-E data encoders. Greg also laid the groundwork for our Frequency Hopping Spread Spectrum Radio project. He guided us into the Internet age, along the way creating the TAPR SIG mailing lists that now handle thousands of messages per month. Greg is also responsible for our increased publishing activities. His retirement leaves a void in TAPR that will be hard to fill."

Ackermann said that his primary objective will be to ensure that TAPR remains on the cutting edge of radio technology, with a special emphasis on emerging concepts such as Software Defined Radios. He will also focus on increasing membership and optimizing the organization's management structure.

Ackermann (ex-AG9V), who lives in Dayton, Ohio, has served on the TAPR Board of Directors and as vice president since 1995. He was first licensed in 1974 and has helped build packet radio networks in Ohio and Wisconsin. Ackermann is active on APRS, runs a Linux-based Internet site at his home, and can occasionally be found on CW chasing DX.

Bible lives in Kingsland, Georgia, and has been a TAPR Board member since 1996. He was project manager for TAPR's Totally Accurate Clock (TAC-2), EVM Radio Interface, PIC Encoder, and DGPS Reference Station kits. Bible is leading TAPR's development of a road map to develop Software Defined Radio technology for amateur use.

In other news from the DCC:

* TAPR announced that it will be offering the "EasyTrak" satellite rotor and radio controller. This PIC-based unit will control azimuth and elevation rotors for satellite use, as well as tune popular radios for Doppler correction.

* PRUG, the Packet Radio Users Group of Japan, demonstrated the possibilities of low cost Internet-connected sensors and software mobile agent technology. PRUG also introduced the TINI-AMEDES, a Java based one-board computer with Ethernet interface which supports the Dallas Semiconductor 1-wire interface, and provided an update on their 2.4Ghz spread spectrum radio, which has been commercialized by Root, Inc.

* Geoffrey Dick, WA4IKQ, was winner of the grand prize awarded at the Saturday evening banquet. Geoff won a TM-D700 APRS-capable mobile radio donated by Kenwood.

DCC 2001 will be held in Cincinnati, Ohio from September 21-23, 2001. Conference coordinators will be Steve and Sheila Bible assisted by local coordinator Hank Greeb, N8XX.

About TAPR
TAPR (officially, Tucson Amateur Packet Radio, Inc.) is a non-profit research and development corporation dedicated to advancing amateur radio through digital technology. It focuses on development of hardware and software tools that enable ham radio operators to explore leading edge technologies. Despite its name, TAPR is an international organization with over 2000 members worldwide.

To whom it may concern:

Barry and Greg both disappeared from the BOD listing on the TAPR web page.
!See:

http://www.tapr.org/tapr/html/Finfo.html

As I have not seen any notes on this list as to who the BOD appointed to replace
these two, what are the status of these two open seats?

While I understand TAPR is a volunteer organization, apparently someone had the
time to edit the HTML page deleting these two members.... IMHO seems it's even
easier to generate a ascii text file for this mailing group. No-one here expects
a polished article.... this is a informal list set up to keep the membership appraised
of organizational issues.

On a related subject, before Greg left as president, he made the promise to keep the
membership informed via this very mailing list. It would be nice to carry on the
spirit of the commitment Greg made, even though he is no longer president, in
particular when major events occur that affect the organization, such as this one.

-Jeff

-- From Greg's Feb 2000 list formation message

>As Greg mentioned in his column (Jan 2000 PSR), the TAPR Board has
>realized
>from recent email discussions that we need to provide a better forum for
>communicating with members about organizational issues.

>The purpose of this list is to improve communications between TAPR
>and its members. This will be the place to raise and discuss
>organizational issues. To improve the signal-to-noise ratio on our
>technical mailing lists, we ask that all discussions about TAPR as an
>organization be moved to the tapr-org list.

Greg publically announced his resignation at the membership meeting at
the DCC. Barry announced his to the Board more recently. Per the bylaws,
the Board may appoint a replacement to fill the remaining portion of the
term of a resigning Director. We are currently considering replacements
for Greg and Barry. We intended to make a formal announcement to this
list (and other media outlets) when that process was complete and we could
announce the new Board members. The change to the web page was a
timing miscue.

Also as an FYI to the list -- since the annual membership meeting is
now held in conjunction with the DCC in the fall, we are changing the
election cycle for Board members to track that. The election ballot
will be in the Spring PSR rather than the Winter issue. Basically, the
cycle moves about 3 months later than it was.

73,
John N8UR
President, TAPR

Yeap, that's what I read also.

> We are currently considering replacements
> for Greg and Barry. We intended to make a formal announcement to this
> list (and other media outlets) when that process was complete and we could
> announce the new Board members.

So, if I understand correctly, Barry's appointed replacement will hold office
until the spring, where as Greg's will hold office until 2002? That part wasn't
entirely clear in the bylaws. Is there a time limit as to when these appointments
must be made?

> The change to the web page was a timing miscue.

I don't understand this statement.... you either intended to tell the membership
or you didn't. As you indicated that one of the resignations was made at your
public meeting, it seems that the change to the web site was entirely proper as

it accurately represented who was a serving board member. I
just didn't happen to be at this public meeting nor does it appear the audio for
this meeting is on the web page.

Might I be so bold as to suggest this annual meeting audio also be part of the DCC
real audio presentation on the web page?

Thanks and 73

Jeff

Jeff:

The audio recordings are donated labor by Greg Jones. As he was a board
member at the time and therefore participating in the meeting in question,
it would have been difficult for him to have recorded the session (those
who've seen the physical arrangements would understand this more clearly).
TAPR has no control over what audio gets recorded, or not at the DCC- it's
up to Greg as an individual contributor.

Although audio wouldn't necessarily be available from the Annual Meeting,
it seems appropriate that minutes would be - perhaps a question for the
Secretary.

John, all:

This may well be a moot point, split hair, what-have-you, but...

I remember Greg's announcement at the Annual Meeting somewhat differently.

I didn't hear Greg actually say the words AT THE ANNUAL MEETING "I resign".
Repeat- I DIDN'T hear Greg say "I resign".

What I remember Greg saying was that he INTENDED to resign from the Board
of Directors... something to the effect of (I'm not claiming to remember
Greg's exact words) "I'll be resigning from the TAPR Board".

I don't know when Greg's resignation actually became effective, but in my
mind, at the end of the Annual Meeting, Greg was still a member in good
standing of the TAPR Board of Directors.

Thanks,

Steve Stroh N8GNJ

> up to Greg as an individual contributor.

All TAPR needs to do for audio is put a request out on the lists for some of the
attendees to bring recorders and/or help with the existing arrangements. You'll
have more then a few volunteers. Just ask, there is alot of talent among the
membership.

> Although audio wouldn't necessarily be available from the Annual Meeting,
> it seems appropriate that minutes would be - perhaps a question for the
> Secretary.

I didn't know Greg was the sole person doing the project (I knew he was doing
the real audio conversions). In any case, it just seemed to me that of all the
sessions recorded and transcribed to the TAPR page, the TAPR annual meeting (and possibly
the BOD meeting) would be the most important. Not all members can attend the DCC
or Dayton year after year, and having the unedited TAPR membership meeting audio online
would go a long way in making these absent members feel a part of the TAPR experience.

Not complaining, just making suggestions to improve the interface between TAPR
and the membership. If I'm at a DCC meeting, I'd be happy to help with the audio.

Regards,

Jeff

FOR IMMEDIATE RELEASE

February 10, 2001
TAPR APPOINTS NEW DIRECTORS, SECRETARY

Steve Stroh, N8GNJ, and Byon Garribrant, N6BG, have been appointed to the TAPR Board of Directors, and Guy Story, KC5GOI, has been appointed the organization's Secretary.

Steve Stroh is a long time member of TAPR. He lives in Woodinville, Washington, a suburb of Seattle, where he is a member of the Puget Sound Amateur Radio TCP/IP Group (also known as WetNET, the Washington Experimenter's TCP/IP Group) and MicroHAMs, the Microsoft Amateur Radio Club. Steve's major interests in Amateur Radio are digital modes and advanced wireless networking. Steve has been the manager of TAPR's "NetSig" special interest group for several years, and has also been active in TAPR's spread spectrum SIG.

Steve was recently named Digital Editor for CQ Amateur Radio Magazine and writes CQ's monthly Digital Wireless column. Professionally, he is a full-time Independent Technology Writer, focusing on Broadband Wireless Internet Access.

Steve will fill the remaining Board term of Greg Jones, WD5IVD, who previously announced his desire to resign from his TAPR offices after many years of service.

Byon Garribrant has been active in packet radio and transmitter hunting since he was licensed in 1990. He served as the Digital Communications Officer for Orange County RACES for 5 years, maintaining the group's packet BBS, and organizing digital communication exercises using packet message-passing software he created.

In 1998, Byon began actively working with TAPR as a member of the PIC-E design team, and published the firmware used in the PIC-E. He has also given presentations at the last three Digital Communication Conferences on PIC programming. Byon has created several PIC-based amateur radio devices, including the GST-1 and GST-2, which allow GPSs to be used with APRS, the TinyTrak, an inexpensive TNC replacement for an APRS tracker, and PicCon, a transmitter controller for T-Hunting. He sells these devices as kits from his home business, Byonics. He lives in Las Vegas, Nevada, with his wife, Lara, KD6AYO, and three children and works as a computer game programmer for Westwood Studios.

Byon will fill the remaining Board term of Barry McLarnon, VE3JF, who served TAPR as a Director and volunteer for many years. TAPR will miss Barry's technical knowledge and true ham spirit.

Guy Story was first licensed in 1994 and has been an active packet radio user since his first day as a ham. He operated a TCP/IP station using JNOS before becoming active in APRS in early 1997, when he also joined TAPR. As a TAPR member, he has been actively involved in the organization's APRS and spread spectrum activities. Guy is also the APRS Chairman and repeater control operator for the Denton County Amateur Radio Association and is an assistant emergency coordinator for Denton County ARES.

Guy lives in Denton, Texas and is an Electronics Technician in the area of EMC/EMI compliance for Interphase Corporation in Dallas.

Guy takes over as Secretary from Bob Hansen, N2GDE, who continues as a Director and as Editor of the Packet Status Register, TAPR's quarterly journal.

About TAPR
TAPR (officially, Tucson Amateur Packet Radio, Inc.) is a non-profit research and development corporation dedicated to advancing amateur radio through digital technology. It focuses on development of hardware and software tools that enable ham radio operators to explore leading edge technologies. Despite its name, TAPR is an international organization with

over 2000 members worldwide.

Hello:

At what date, time and location will the TAPR Board meeting me held in Dayton this year?

Will this be a open meeting?

Thanks

Jeff wb8wka

The TAPR offices will be moving a few miles from Denton to Richardson,
Texas. We'll be closing on July 26 for the move and re-opening on August
6. The Tucson mailing address will remain the same (it is a maildrop that
forwards to the real office address) but the phone numbers will change.
Effective August 6, they will be:

Voice: 972-671-TAPR (8277)
FAX: 972-671-8716

The office email address -- tapr@tapr.org -- will not change.

The move is occurring because Dorothy Jones, KA5DWR, our longtime Office
Manager, has decided to take a well-earned retirement. It would take a lot
of words to fully describe how much Dorothy has done for TAPR, and how much
we've all relied on her over the years, so I'll just say "Thanks!"

Our new office manager is Laura Koster (XYL of Board member John Koster,
W9DDD). Laura had a baptism of fire by handling the TAPR booth at the
Dayton Hamvention this year, and she did a great job. We're very happy to
have her on board, and we're sure that she will carry on Dorothy's goal of
providing great service to our members.

73,
John Ackermann N8UR
President, TAPR

Are there any BOF (Bird's Of a Feather) sessions scheduled for the DCC this year?
I'd be interested in ones for PIC/AVL as well as Spread Spectrum (part 15 or otherwise)
and would be willing to help or moderate them (I moderated the SS one in 1997).

The early registration discount for both the hotel room rate, and the
registration fee, expires on September 10, so you only have a couple more
days to get your reservations and registration made at the lowest price.
Registrations at the normal price will be available and at the door (of
course, hotel rooms will be subject to availability).

The DCC begins on Friday, September 20 and runs through Sunday, September
22. Full details are available at
http://www.tapr.org/tapr/html/Fdccconf.html.

A couple of updates on the program:

1. We're very happy that Anthony R. Curtis, Ph.D, K3RXK, will be our
speaker at the DCC banquet. Tony's presentation will be titled "40 Years
of Amateur Radio In Space: Where We've Been, Where We Are, and Where We're
Going."

2. We've confirmed that the Packet Radio Users Group (PRUG) of Tokyo,
Japan will be sponsoring a reception and talking about their latest
activities Friday evening. PRUG is really on the cutting edge of digital
radio, and their presentations are always fascinating.

3. We are also fortunate to have three great activities that focus on the
hardware and soldering-iron side of amateur radio:

* On Saturday, Jay Craswell, W0VNE, will do an introductory program on
using
CirCAD, a powerful schematic drawing/PCB layout program that's available
(in a
slightly limited form) for ham use at no cost.

* Also on Saturday, Ten-Tec's Gary Barbour, AC4DL, will be talking about
Software
Defined Radio development at Ten-Tec.

* Our "Sunday Seminar" will feature Dave Newkirk, W9VES, providing a
tutorial
on using the Serenade SV RF design software; this is another professional
package
with a free version available for ham use.

We hope to see you there!

In a previous email I incorrectly stated that the Circad schematic drawing
and PCB layout program is available for Ham use at no cost. I
misunderstood the relationship of the various versions.

There is a highly discounted version of the $995 Circad program available
at $295. This $295 version is available to Licensed Ham/Amateur Radio
Operators only. Check out http://dover.5u.com/ for more info on the Ham
Discount.

There is a demo version of Circad downloadable at http://www.holophase.com;
although that version can be used to draw small schematics and PCBs, it's
not a replacement for the full program.

I want to apologize to Holophase and to Jay Craswell for improperly
describing the versions of Circad, and to you for any confusion this may
have caused.

With the tragic events of this week, we've had to seriously consider
whether it was still appropriate or feasible to hold the Digital
Communications Conference next weekend (Sept. 20-22) in Cincinnati.
Although we grieve with the whole world for the losses so many have
suffered, we believe it's important to show that terrorism will not succeed
in making us change our way of life.

So, the DCC will go on. We realize that in light of the circumstances,
some folks who have already registered may feel they cannot attend. If
that is the case, please contact the TAPR office (tapr@tapr.org) and we
will arrange a refund of your registration fee. If you are traveling to
the DCC, remember that things may still be somewhat disrupted next week,
and increased security precautions will certainly cause some airport
delays. Check with your airline early and often to make sure they haven't
changed your plans for you.

We realize that this year's DCC may well be smaller, and will certainly be
more somber, than in past years. But we think that going ahead is the
right thing to do, and we hope that you agree.

73,
John

The meeting of the TAPR Board of Directors at the DCC will be held on
Friday, September 21 from 8:00 - 11:00AM Eastern time in a room to be
announced (the hotel will have it on their schedule).

The membership meeting (Q&A time) will be held Saturday afternoon following
the main session -- starting time still to be firmed up, but probably
around 4:30 or 5:00.

Due to the events of last week, we've had a number of presentations
canceled and we are readjusting the DCC schedule accordingly. One change
is that the APRS event on Friday will start at 1:00PM instead of in the
morning. Thus, there is no conflict with the Board meeting being held that
morning.

In a day or so we'll be posting a more general announcement with further
schedule information.

73,
John

Hi:

Did anyone at TAPR consider my request/suggestion of 8/1/2001? Not hearing back
from any decision makers, I figured no interest, but in light of some of the cancellations,
you might reconsider it to fill some time. As I said, I'd be willing to help out. I know
a number of embedded folks will be at the DCC, so that might be the one to do.

These were the high points of DCC's/CNC's of past years, and I'd like to see them come
back.

73

Jeff,

In that past years since you've been at the Chicago DCC, we've filled much
of the time with various activities. So much so that we are running out of
time. Case in point, this year we wanted the Friday APRS Seminar to be all
day. Well, you know the rest of this story. So we cut back to half day.

I'll be posting the schedule to the DCC web sight shortly after I hear back
from a majority of the presenters. You should have received an advanced
copy.

There is open time. We are going to remain flexible this year. If you see
the opportuinty to pull a group together to discuss various topics (aka
BOTF), go right ahead. Also, talk to me at the DCC about how we can fit it
in to next years DCC.

- Steve, N7HPR

Hi Jeff --

I thought I had replied that we weren't going to have formal BoFs (we
haven't done that for quite a while) because it's hard to find any time
slot other than late evening after other events are finished, but we're
sure willing to use the environment to let folks get together to chat about
common interests. (If I didn't reply, I'm sorry -- the combination of
moving my house (I'm in a temporary place right now), moving TAPR offices,
and getting ready for DCC has made a shambles of my inbox.)

I think we have the Saturday schedule pretty well set without too much
padding, but if you want to have an announcement that, say, embedded Linux
types will get together after dinner, we can certainly do that. If the
schedule opens up (but I hope we don't have any more cancellations) we
might set up a 60 minute or so open slot during the day Saturday when we
could do such meetings.

We've learned that the Sunday Seminar on Serenade has to be cancelled
because Dave Newkirk can't travel. As a practical matter, that means that
DCC will really end on Saturday evening, but if there are a number of folks
with flights leaving later in the day Sunday, we can arrange to have
meeting space available for get togethers then... but I'm not sure how many
folks are going to want to hang around on Sunday under the circumstances.

73,
John

Understood on the move.

Yes, I know they haven't been BOF sessions for a while, but I was serious about
them being the highpoint of DCC's in the past. I think back to the San Jose
and St. Paul MN ones, and those are what I remember. I think the equivalent of
late has been the "hallway BOF's", which are great, but being spur of the moment,
I'm sure some folks are left out or don't know about it. Case in point, what I
remember most about the Chicago DCC is the hallway conversations. Not in anyway
taking away from the presentations, these are the anchors of the DCC but are
the catalyst of a good BOF.

I did talk to some of the PIC/Hamhud folks, and there seemed to be some interest, but
I don't know how many of them are still coming. I'll ping a few of them and
see what level of interest exists. There appear to be at least two formal PIC
presentations on the Fri/Saturday agenda, and these would also be good anchors for
a BOF session (authors attend and a Q&A session).

BTW, BOF's of the past typically where held Satruday evening, but I think they
issue now is the Banquete last longer?

Or possibly the DEMO room fills the same purpose as BOF's did in the past? As Steve
said, its been a few years since I went to a DCC.

Maybe if I just tell you my specific interest, that would help. Interactive technical
discussions with all those interested. Authors or just the attendees. Something not

formal, yet something you know those that have like interests will be there.

Regards,

Jeff

Well, the Digital Communications Conference is only a few days away. If
you can make your way to Cincinnati, Ohio this weekend (Sept. 21-22) we
invite you to attend the show -- registration is available at the door.
Full details, including the current schedule, are available at
http://www.tapr.org/dcc.

Here's a brief rundown; note that due to the tragic events of last week,
we've had to make some adjustments to the schedule.

Friday:

Registration Opens 9:00AM

APRS Forum 1:00 - 6:00PM
(The morning part of the Forum has been cancelled.)

PRUG Social 7:00PM
(Come enjoy the hospitality and see the latest activities
of the Packet Radio Users Group of Tokyo, Japan.)

Saturday:

Registration Opens 7:15AM

Main Program 8:00AM - 5:00PM
(There will be a mix of introductory sessions on new
aspects of digital communication, as well as more
advanced topics. We think there'll be something
for everyone.)

TAPR Membership Meeting 5:00PM

Banquet 7:00PM
(Anthony Curtis, K3RXK will speak on "40 Years of Amateur
Radio in Space.")

NOTE: We've regretfully had to cancel the Sunday Seminar. If you
registered for it, please stop at the registration area or contact TAPR to
arrange a refund.

Going to the Dayton Hamvention? Then plan to attend the annual Digital*BASH
sponsored by TAPR and the Miami Valley FM Association to be held on Friday,
May 17, 2002!

For reservations, please contact the TAPR office as described below.

What?
An event for the digitally-inclined ham, featuring:
* Buffet dinner (Prime Rib, Chicken, and Pasta)
* Keynote Address (Speaker to be named)
* TAPR special interest group meetings
* "Birds of a Feather" gatherings

When?
Friday evening, May 17, 2002
Doors open at 7:00 pm; dinner served at 7:30 pm
Speaker and meetings after dinner

Where?
Kohler's Banquet Center, 4548 Presidential Way, Kettering
(39 40.75N, 84 08.43W), about 6 miles SE of downtown Dayton --
just off of East David Road. Detailed directions and maps are available
on the TAPR web site (http://www.tapr.org/tapr/html/Fdayton.maps.html)
or at the TAPR booth.

How?
Dinner requires advance registration and payment through TAPR.
Tickets will be available at the TAPR booth on Friday, though
we strongly encourage registration <before> Hamvention. The cost
is $25.00 per person, tax and tip included.

All amateurs are welcome to attend, enjoy the speaker, and
particpate in the meetings, although only those purchasing a dinner
can eat.

To register, contact:
PACK*BASH
c/o TAPR
8987-309 E. Tanque Verde Road #337
Tucson, AZ 85749-9399

Phone: 972-671-TAPR (8277)
Fax: 972-671-8716
Internet: tapr@tapr.org

Visa/Mastercard Accepted

Who?
PACK*BASH is co-sponsored by TAPR -- Tucson Amateur Packet Radio,
the national leader in digital communication -- and the Miami
Valley FM Association, Dayton's packet radio club.

For more information (including maps), go to
http://www.tapr.org/tapr/html/dayton.html#packetbash, or send email to
tapr@tapr.org.

We're very happy to announce that Bdale Garbe, KB0G, will be the keynote
speaker at the TAPR/MVFMA Digital BASH on Friday evening at Hamvention.

Bdale is one of the long-time "good guys" in the digital radio and amateur
satellite worlds. He was in the middle of the early work on KA9Q's "NET"
and "NOS" programs, pioneered megabit-rate packet radio, and in the
satellite world was heavily involved in the RUDAK and AO-40 GPS
experiments. Back in the Old Days, he was a board member and Vice
President of TAPR, and remains one of TAPR's best friends. On a different
front, Bdale was just elected as Debian Project Leader, so he now oversees
one of the major Linux distributions -- and the one that is by far the most
ham-friendly. Bdale works in the Linux development group at HP, and in his
spare (?) time does VHF/UHF/microwave contesting and roaming.

Bdale's talk will blend all of these interests into an entertaining and
informative presentation titled "From Bits in the Basement to Debian -- and
Back Again".

You can find more information about the Digital BASH and TAPR's other
Hamvention activities at http://www.tapr.org/tapr/dayton/.

See you there!

73,
John

As the subject says... the new issue of TAPR's journal, the
_Packet_Status_Register_, is now available online. You can go to
http://www.tapr.org/tapr/html/Fpsr.html, or obtain it via ftp from
ftp://ftp.tapr.org/psr/Spring_83_2002.pdf. You'll need Adobe Acrobat or
other PDF file reader to view the document.

Stan Horzepa, WA1LOU, has taken the reins as the PSR's editor, and I'd like
to thank him for his great work on this issue. Please send comments,
suggestions, or -- best of all -- articles to Stan at psr@tapr.org.

73,
John N8UR

The spring meeting of the TAPR Board of Directors will be held Thursday,
May 16, 2002 at the Best Western Executive hotel, 2401 Needmore Road,
Dayton. The meeting will begin at 7:00 to 7:30PM (exact time will depend
on how the airlines treat some of our board members). The room number is
not yet known, but we will inform the front desk of the number. Ask for
"TAPR Board Meeting".

The meeting is open to TAPR members, though the Board may adjourn to
executive session to discuss personnel, contracts with third parties, or
other confidential matters.

73,
John N8UR
President, TAPR

Many packets ago, we had a TCP-GROUP mailing list hosted at
UCSD. Before it died a far too colorful death, it was the core of
discussions for TCP and Amateur Radio networking.

Today we have several lists that cover portions of TCP/IP and
Amateur Radio, such as NETSIG, BBSSIG and Linux-Hams, but
no list focused there.

I propose that this would be a good thing. We have backbone providers
and ISP's disappearing, homeland security issues and on the fun side,
incredibly cheap technology available. It's time for a revitalization
of the Amateur TCP system. Would TAPR be interested in hosting
a "TCPSIG" list?

73,
Bill - WA7NWP

The Autumn 2002 issue of TAPR's journal, the _Packet_Status_Register_, is
now available online.

You can download it, and past issues of PSR, from http://www.tapr.org/psr
or via FTP from ftp.tapr.org/psr. The issue name is "Autumn_85_2002.pdf".

73,
John N8UR

<BODY>
<div><FONT FACE=3D"Arial" SIZE=3D3> Darryl:</FONT></div>
<div> </div>
<FONT FACE=3D"Arial" SIZE=3D3> </FONT><div><FONT FACE=3D"Arial" SIZE=3D3>=
Been researching your proposal some today but also noticed it=
appeared to be from you and the TAPR BOARD? So I'll copy them as=
well.</FONT></div>
<div> </div>
<FONT FACE=3D"Arial" SIZE=3D3> </FONT><div><FONT FACE=3D"Arial" SIZE=3D3>=
James Lux mentioned the Ethernet enabled TNC4 and a quick search=
came up with alot of hits. Here is one that is in a kind of=
english:</FONT></div>
<div> </div>
<FONT FACE=3D"Arial" SIZE=3D3> </FONT><div><FONT FACE=3D"Arial" SIZE=3D3>=
<a=
href=3D"http://www.qsl.net/eb7cjo/files/tnc4e/tnc4e.html">http://w=
ww.qsl.net/eb7cjo/files/tnc4e/tnc4e.html</a></FONT></div>
<div> </div>
<FONT FACE=3D"Arial" SIZE=3D3> </FONT><div><FONT FACE=3D"Arial" SIZE=3D3>=
<a=
href=3D"http://www.tnc4.de/">http://www.tnc4.de/</a></FONT></div>
<div><FONT FACE=3D"Arial" SIZE=3D3> <a=
href=3D"http://www.swiss-artg.ch/xnet/arm7.htm">http://www.swiss-a=
rtg.ch/xnet/arm7.htm</a></FONT></div>
<div><FONT FACE=3D"Arial" SIZE=3D3> <a=
href=3D"http://www.swiss-artg.ch/xnet/tnc7.pdf">http://www.swiss-a=
rtg.ch/xnet/tnc7.pdf</a></FONT></div>
<div><FONT FACE=3D"Arial" SIZE=3D3> <a=
href=3D"http://www.swiss-artg.ch/xnet/">http://www.swiss-artg.ch/x=
net/</a></FONT></div>
<div> </div>
<FONT FACE=3D"Arial" SIZE=3D3> </FONT><div><FONT FACE=3D"Arial" SIZE=3D3>=
My thought is why not just work with these folks in getting=
these into the U.S.  maybe a production license to reduce=
costs? Xnet has already been ported to this box... it is open=
source so the clear implication what you seek already=
exists.</FONT></div>
```

<FONT FACE=3D"Arial" SIZE=3D3> </FONT> <FONT FACE=3D"Arial" SIZE=3D3>=
It also might serve to get some involvement with the European=
packet organizations that you where seeking to promote. Two=
birds with one stone as they say.</FONT>

<FONT FACE=3D"Arial" SIZE=3D3> </FONT> <FONT FACE=3D"Arial" SIZE=3D3>=
Give it some thought as where as the Rabbit is a crap shoot at=
best from a success perspective. If these folks will work with=
TAPR (and TAPR will work with them??) then this is a sure thing=
and a feather in everyone's cap. You have your ethernet=
TNC</FONT>
<FONT FACE=3D"Arial" SIZE=3D3>
</FONT><FONT FACE=3D"Arial" SIZE=3D3> But I'm interested (per my=
earlier letter) whatever way you decide to go.</FONT>

<FONT FACE=3D"Arial" SIZE=3D3> </FONT> <FONT FACE=3D"Arial" SIZE=3D3>=
Regards,</FONT>

OK...

I just looked at the TNC-4 and the pricing... And what what I can read
the cost of the unit is about 425 euro. From my memory of exchange rates
that makes it about US$425. This is too expensive. [See
http://www.hbtron.de/afu/tnc4edesc.html for prices]. Admittedly the
communications processor is a 68EN302.

Surface mount is a part of the world today, but I feel that teh 68EN302
would be too much of a learning curve for surface mount. We need other
surface mount kits first.

By using a rabbit controller on a pre-made board we can reduce the price
to under 1/2 that. For those that do not like the rabbit controller -
and have good reasons, Adi has suggested that we could get a ATMEL or
similar CPU board made up in the future so could swap processors.

I do not think that the rabbit has the sheer computing power of the
68EN302, but do we need it?

If we are to do the project ourselves, I think that we need to
a) Reduce the risks associated with the project
b) Make construction easy.
c) Make kitting easy.

Darryl

Subject: [tapr-org] Re:Ethernet TNC

Darryl:

Been researching your proposal some today but also noticed it appeared
to be from you and the TAPR BOARD? So I'll copy them as well.

James Lux mentioned the Ethernet enabled TNC4 and a quick search came up
with alot of hits. Here is one that is in a kind of english:

http://www.qsl.net/eb7cjo/files/tnc4e/tnc4e.html

http://www.tnc4.de/
http://www.swiss-artg.ch/xnet/arm7.htm
http://www.swiss-artg.ch/xnet/tnc7.pdf
http://www.swiss-artg.ch/xnet/

My thought is why not just work with these folks in getting these into
the U.S. maybe a production license to reduce costs? Xnet has already
been ported to this box... it is open source so the clear implication
what you seek already exists.

It also might serve to get some involvement with the European packet
organizations that you where seeking to promote. Two birds with one

stone as they say.

Give it some thought as where as the Rabbit is a crap shoot at best from
a success perspective. If these folks will work with TAPR (and TAPR will
work with them??) then this is a sure thing and a feather in everyone's
cap. You have your ethernet TNC

But I'm interested (per my earlier letter) whatever way you decide to
go.

Regards,

-Jeff

<B>Subject:</B> [tapr-org] Re:Ethernet=20
TNC

</FONT></DIV>
<DIV><FONT face=3DArial size=3D3>Darryl:</FONT></DIV>
<DIV> </DIV><FONT face=3DArial size=3D3></FONT>
<DIV><FONT face=3DArial size=3D3>Been researching your proposal some =
today but=20
also noticed it appeared to be from you and the TAPR BOARD? So I'll =
copy them=20
as well.</FONT></DIV>
<DIV> </DIV><FONT face=3DArial size=3D3></FONT>
<DIV><FONT face=3DArial size=3D3>James Lux mentioned the Ethernet =
enabled TNC4 and=20
a quick search came up with alot of hits. Here is one that is in a =
kind of=20
english:</FONT></DIV>
<DIV><FONT face=3DArial color=3D#0000ff =
size=3D2></FONT> </DIV><FONT face=3DArial=20
size=3D3></FONT>
<DIV><FONT face=3DArial size=3D3><A=20
=
href=3D"http://www.qsl.net/eb7cjo/files/tnc4e/tnc4e.html">http://www.qsl.=
net/eb7cjo/files/tnc4e/tnc4e.html</A></FONT></DIV>
<DIV> </DIV><FONT face=3DArial size=3D3></FONT>
<DIV><FONT face=3DArial size=3D3><A=20
href=3D"http://www.tnc4.de/">http://www.tnc4.de/</A></FONT></DIV>
<DIV><FONT face=3DArial size=3D3><A=20
=
href=3D"http://www.swiss-artg.ch/xnet/arm7.htm">http://www.swiss-artg.ch/=
xnet/arm7.htm</A></FONT></DIV>
<DIV><FONT face=3DArial size=3D3><A=20
=
href=3D"http://www.swiss-artg.ch/xnet/tnc7.pdf">http://www.swiss-artg.ch/=
xnet/tnc7.pdf</A></FONT></DIV>
<DIV><FONT face=3DArial size=3D3><A=20
=
href=3D"http://www.swiss-artg.ch/xnet/">http://www.swiss-artg.ch/xnet/</A=

></FONT></DIV>
<DIV> </DIV><FONT face=3DArial size=3D3></FONT>
<DIV><FONT face=3DArial size=3D3>My thought is why not just work with =
these folks=20
in getting these into the U.S. maybe a production license to =
reduce=20
costs? Xnet has already been ported to this box... it is open source =
so the=20
clear implication what you seek already exists.</FONT></DIV>
<DIV> </DIV><FONT face=3DArial size=3D3></FONT>
<DIV><FONT face=3DArial size=3D3>It also might serve to get some =
involvement with=20
the European packet organizations that you where seeking to promote. =
Two birds=20
with one stone as they say.</FONT></DIV>
<DIV> </DIV><FONT face=3DArial size=3D3></FONT>
<DIV><FONT face=3DArial size=3D3>Give it some thought as where as the =
Rabbit is a=20
crap shoot at best from a success perspective. If these folks will =
work with=20
TAPR (and TAPR will work with them??) then this is a sure thing and a =
feather=20
in everyone's cap. You have your ethernet TNC</FONT></DIV>
<DIV><FONT face=3DArial size=3D3>
</FONT><FONT face=3DArial =
size=3D3>But I'm=20
interested (per my earlier letter) whatever way you decide to =
go.</FONT></DIV>
<DIV> </DIV><FONT face=3DArial size=3D3></FONT>
<DIV><FONT face=3DArial size=3D3>Regards,</FONT></DIV>

<HTML><HEAD>
</HEAD>
<BODY>
<FONT FACE=3D"Arial" SIZE=3D3> Darryl:</FONT>

<FONT FACE=3D"Arial" SIZE=3D3> </FONT> <FONT FACE=3D"Arial" SIZE=3D3>=
Thanks for the quick reply. You totally missed my point=
though.</FONT>

<FONT FACE=3D"Arial" SIZE=3D3> </FONT> <FONT FACE=3D"Arial" SIZE=3D3>=
Noticed I said contact the German group and talk about licensing=
it. I realize the prices listed are too high, which is exactly=
why I suggested what I did. Not sure now, but at one time=
labour costs in Germany where one of the highest in the world.=
Also, there is another project, the TNC7 that might be had. Plus=
you need to subtract the VAT. Plus it had a case and a profit=
built in.</FONT>

<FONT FACE=3D"Arial" SIZE=3D3> </FONT> <FONT FACE=3D"Arial" SIZE=3D3>=
I guess what TAPR does depends on it's goal. I was looking at=
this from a high level... the stated desire is a multi-port=
Ethernet tnc.. and the quickest lowest risk way of achieving=
this. Yes, reinventing the wheel is one way to do it, and if all=
else fail's, that is the way to go, but I don't think this=
research has happened, nor is that the only way to=
go.</FONT>

<FONT FACE=3D"Arial" SIZE=3D3> </FONT> <FONT FACE=3D"Arial" SIZE=3D3>=
So, maybe I don't understand the goals here. Is it a ethernet=
TNC or is it a project? No problem with a project, I'm just=
suggesting if your goal is a ethernet TNC, this might be the=
quickest lowest risk way to that goal. Plus it also achieves=
your personal stated desire of getting TAPR working with=
European amateur packet groups. That is what I meant by two=
birds with one stone.</FONT>

<FONT FACE=3D"Arial" SIZE=3D3> </FONT> <FONT FACE=3D"Arial" SIZE=3D3>=
Again, I stress, I'm trying to look at this objectively, with=
the highest level of success and lowest risk. If the only=
objection is cost, I think this needs to be explored further as=
I don't see a reason that it couldn't be reduced.</FONT>

<FONT FACE=3D"Arial" SIZE=3D3> </FONT>

I'm confused, I saw this thread start on TAPR-TNC and now it's on TAPR-ORG
list? Sorry about the off topic, but you've got me scratching my head.

I've seen it on APRS-SIG and PIC-SIG as well.

Darryl asked that replies be made off the list.

I later noticed that Darryl was speaking for the TAPR board, and since this
is the "TAPR-ORG" list, I cc'ed my thoughts here as well.

Care to comment on it since you are a member of the board and this is what
this list is for?

Just jumping in a bit, and Darryl can certainly speak for himself, but
here's my take.

Darryl is out prowling around for (a) projects that might be of general
interest to the TAPR community, and (b) for people to take them on. He's
doing that in his role as a Board member -- and more power to him! -- but
there's no "official" TAPR project going on for any of these ideas at the

moment, or even formal proposals. The hope is that we can combine the identified projects with volunteers stepping forward to help see them through; if that happens, TAPR will be willing to provide the support we always do. But unfortunately, as always, there are more ideas than there are volunteers to make them happen.

John

But is that a defined goal?

Low power?
Automotive?

I simply was responding to the stated need of a "Ethernet TNC".

Granted, the requirements at this point are fluid, I was just trying to point
out that something cheap exists that meets the goal of "Ethernet TNC" right
now.

The Winter, 2003 issue of TAPR's journal, The Packet Status Register, is
available online at http://www.tapr.org/PSR.

Its contents include:

* New 802.11 E-List
* TAPR Project Policy
* OneTech ¹02 Technical Symposium
* Book Review: 802.11 Wireless Networks
* 3D Environments and Mars: A Follow-up from the 2002 DCC
* Extending Icom OPC-581 Extension Cables for Icom IC-706s
* Digital Radio Mondiale and Amateur Radio Implications
* 2003 in Connecticut

Enjoy!

73,
John

(Sent on behalf of Darryl, VK2TDS, TAPR Membership Director -- mailto:
vk2tds@tapr.org)

People

TAPR Membership

Running TAPR takes resources, and as a non-profit organisation we rely
on members for part of our funding. If you support the work that TAPR is
doing, we would welcome your membership of the organisation. You can
join by clicking on http://www.tapr.org/tapr/html/orgf.html . We have
also been listening to members requesting that we support electronic
commerce. TAPR are currently testing the use of PayPal in association
with the current ordering system on the Web. We will post a message on
the WWW site as soon as this is available.

Until then you can still join. Just fill out the electronic form as
normal, and state in the comments that you want to pay with PayPal when
it is available.

Digital Communications Conference

This years DCC will take place at the Hartford/Windsor Marriott Airport
Hotel in Windsor, Connecticut, on the weekend of September 19-21, 2003.

The hotel is 6 miles south of Bradley International Airport (BDL) and 13 miles north of ARRL Headquarters in Newington. Information will soon be available on http://www.tapr.org/tapr/html/conff.html. Until then you can find more information in the PSR at ftp://ftp.tapr.org/psr/Winter_86_2003.pdf

We will soon be issueing a call for papers for this event. Have a think about what you want to write about and start planning your paper now. If you are unable to come up with a subject, it is often possible to find friends with something to write about, but who don't have the time. You can help your friend and the Ham community by writing the paper on their behalf. There will be two popular discussion points at the conference - Software Defined Radios and 802.11 networks.

DCC Conference Proceedings

We have also reduced the price of each of the proceedings of the DCC up until 1997 to only US$6 each. This makes the a real bargain. We are also making available sets of volume 1-10 and 11-16 available for US33 each - but please bear in mind that we no longer have copies of a number of the proceedings so we cannot guarenttee that the sets will be complete.

Electronic Distribution of Packet Status Register (PSR) Magazine

Listening to members we have found that many people are concerned about missing out on the PSR now that it has gone electronic. We recognise this as an issue, and we have come up with a solution to make things a bit easier in this digital age. We have created two mailing lists to assist you with keeping up to date with the quarterly magazine. They are

PSR-Announce
PSR-PDF

PSR-Announce is designed to advise the availability of the PDF file for download. We recognise that many people are on slow internet connections at home, or in fact have to pay for their bandwidth. So we have created a mailing list just to tell you when the magazine comes out, and to let you know how to get it. You can subscribe by visiting http://www.tapr.org/cgi-bin/lyris.pl?enter=psr-announce&text_mode=0

PSR-PDF is designed for people who have a faster internet connection, or who know that they will never get to read it unless it is sent directly to them. Since PSR often contains graphics, the file can be over one mByte. You can subscribe by clicking http://www.tapr.org/cgi-bin/lyris.pl?enter=psr-pdf&text_mode=0

802.11 Mailing List

Whilst we are on the subject of mailing list, TAPR have started a mailing list for 802.11 'Wireless Internet' operations. It seems that every community has a mailing list dedicated to 802.11. So how is the TAPR one different? It is dedicated to 802.11 use in ham radio. The list contains active members of the entire range of technical ability - from the most basic understanding of how radio works, to the deep internals of this equipment. Such a broad range that everyone is sure to fit in. You can join by visting http://www.tapr.org/cgi-bin/lyris.pl?enter=ham-80211&text_mode=0

GNUradio receives HDTV

Matt Etus and the other people at the GNUradio project have announced that they have managed to decode the HDTV data stream on their PC's and have published the source code online. This is an amazing feat by Matt and the team. They are not quite to the stage of real time HDTV decoding on a PC, but are close.

Write for PSR!!!

PSR needs articles, and we would love to publish lots more in the PSR magazine. PSR is a great place to publish articles on everything from local operating practices to deep technical papers. And since the last issue TAPR is now rewarding those people who are helping others by writing articles for the magazine. Following the last issue, six people had their memberships extended by three months. This is just a small thank you from us at TAPR to those people who help us out. More details on PSR can be found on www.tapr.org

Conclusion

I hope you have found this document informative and useful. TAPR is
always looking for new things to do and how to improve what it is
already doing. If you have any ideas or concerns, please email me on
darryl@radio-active.net.au

People

I am looking for powerpoint files to create an improved indexing of
PowerPoint files on TAPR.ORG. I have found some presentations, but I
know that there are a LOT more out there. I would like to get as many
powerpoint files on TAPR.ORG as possible and indexed.

If you have any powerpoint files that you would like to contribute to
the TAPR.ORG archive, please send me an email at VK2TDS@TAPR.ORG and I
will let you know where you can send the file. The files that I need are
anything to do with amateur radio digital communications. This would
include
DCC Presentations (I have most of 2002 seperately)
APRS and GPS
Digital Voice
Emergency Digital Operations
Spread Spectrum and 802.11
etc

The only powerpoints I know of are listed below...

Thanks.... Darryl VK2TDS

Announcing the 2003 TAPR Digital BASH!

What?
An event for the digitally-inclined ham, featuring:
* Buffet dinner
* Keynote Address: A Software Defined Radio for the Masses,

by Gerald Youngblood, AC5OG
* TAPR special interest group meetings
* "Birds of a Feather" gatherings

When?
Friday evening, May 16, 2003
Doors open at 7:00 pm; dinner served at 7:30 pm
Speaker and meetings after dinner

Where?
Kohler's Banquet Center, 4548 Presidential Way, Kettering
(39 40.75N, 84 08.43W), just south of East David Road between Far
Hills Ave. and Wilmington Pike. Maps available on the TAPR web site
(http://www.tapr.org/tapr/dayton, follow the link at the bottom of the
page),
or at the TAPR booth.

How?
Dinner requires advance registration and payment through TAPR.
Tickets will be available at the TAPR booth on Friday, though
we strongly encourage registration <before> Hamvention. The
cost is $25.00 per person, tax and tip included.

All amateurs are welcome to attend, enjoy the speaker, and
participate in the meetings, although only those purchasing a
dinner can eat.

To register, contact:
Digital BASH
c/o TAPR
8987-309 E. Tanque Verde Road #337
Tucson, AZ 85749-9399
Phone: 972-671-TAPR (8277)
Fax: 972-671-8716
Internet: tapr@tapr.org

Visa/Mastercard Accepted

Who?
PACK*BASH is co-sponsored by TAPR -- Tucson Amateur Packet
Radio, the national leader in digital communication -- and the
Miami Valley FM Association, Dayton's packet radio club.

For more information (including maps), go to
http://www.tapr.org/tapr/dayton,
or send email to tapr@tapr.org.

Just a reminder that the annual TAPR Digital BASH will be held Friday
evening at Hamvention. Our keynote speaker will be Gerald Youngblood,
AC5OG, who will describe -- and demonstrate -- his HF software defined
radio, the SDR-1000. I have been playing with the SDR-1000 myself, and it
is a real step forward for ham SDR experimentation. If you're at
Hamvention, you'll want to hear Gerald and see the radio in action.

Tickets are $25 and will be available at the TAPR booth up until about 3:45
Friday afternoon, when we have to call in the final count. Directions to
the banquet hall will also be available at the booth.

And, remember that TAPR will have a bigger and better presence at
Hamvention this year. Our new booth spaces are 607, 608, and 615, just a
little bit down and over from our old spot.

See you there!

73,
John N8UR

Call for Nominations for Election to the TAPR Board of Directors

Nominations are now open for TAPR Board of Director seats expiring this
year, i.e., the seats held by John Koster, W9DDD, Steve Stroh, N8GNJ, and
Brad Noblet, WA8WDQ.

Board members serve three-year terms and their responsibilities include:

1) Attendance at both board meetings each year. (One is held at the Dayton
Hamvention in May, the other at the Digital Communications Conference in
September.)

2) Regular participation in the continuous board session, which is
conducted over the Internet.

3) Active engagement in TAPR's management.

To place a person in nomination, please remember that he or she must be a
member of TAPR. Also, confirm that the individual is willing to have his or
her name placed in nomination. Send that person's name (or your own if you
wish to nominate yourself), call sign, mailing address, email address,
phone number(s) and a biographical sketch (100 words maximum) via email to
tapr@tapr.org or to the TAPR office (8987-309 E. Tanque Verde Rd. #337,
Tucson, AZ 85749-9399) no later than August 24, 2003. If you submit a
nomination by email, we strongly encourage you to follow up by regular mail.

(Sent on behalf of Darryl Smith, VK2TDS, TAPR Membership Director --
vk2tds@tapr.org)

TAPR Membership

TAPR provides a large number of resources to the HAM community. Things such
as this mailing list, the PSR magazine, organising the DCC, sales of Kits
and some parts. But to offer these services we need people to become members
of the organisation. If you benefit from TAPR's services, please consider
joining. Membership does make a difference, and every member does count.

TAPR does not only support APRS, but also digital communications on HF and
VHF. It sells DSP projects, and has one of the best introductory Digital
Communications books available.

We are also always on the lookout for people to assist the organisation with
time and resources. If you have some spare time and would like to assist
TAPR in some way, please contact us at TAPR@TAPR.ORG. We are always needing
technical and non-technical volunteers to assist with various tasks.

DCC Update

The DCC is lining up to be one of the biggest in MANY years. The proceedings
themselves are going to be 248 pages, making this the largest one since
Seattle in 1996. The proceedings will be slightly smaller than the seattle
ones, but is a lot larger than the 50 pages of the 2001 proceedings.

For those attending the DCC, we would encourage you to visit the ARRL HQ at
Newington, Ct, just a few miles up the road. Check out the ARRL www site for
opening hours. More details on the DCC can be found at www.tapr.org/dcc

One word of warning - the hotel is VERY quickly filling up, so it is important to book quickly. The special hotel price of $99 has been extended to September 5 so book now.

PSR Back-Catalog

The back catalog of PSR has now been scanned, and will soon be available from the office on CD-ROM. All the issues are in the process of being OCR'ed to allow searching, and an announcement will be made as soon as they are available for purchase. This single CD-ROM will allow people with the PSR's to gain several inches of shelf space once the CD-ROM is available. The 1994 and 1995 annual proceedings are scheduled for scanning some time after the DCC.

Electronic PSR

For those that do not know, the PSR magazine is now distributed electronically. More details can be found at www.tapr.org/psr

Board Update

During the DCC, the board will be meeting for their 6-monthly meeting. The board will also be participating in a strategic review of the organisation, and we hope to have some results from the review published soon after the event.

PayPal Membership Renewals

TAPR is now offering PayPal as an option for renewal of membership. Until we get the membership renewal letters changed, members wishing to renew through PayPal should contact the office for a 'PayPal Invoice'.

Back issues of DCC Proceedings

TAPR has a space problem, and we are hoping that our members might be able to help. We have literally hundreds of proceedings from past Digital Communications Conferences and are wanting to get rid of them. So for a limited time only, we are offering copies of any proceedings from 1981 to 2000 for the cost of postage and handling. All you need to do is contact the office and let them know what proceedings you are interested. We will ship anywhere in the world.

In many cases, the numbers are strictly limited, although TAPR has over 400 copies of one edition from the early 1990s to distribute.

We're sorry to report that Bill Jones, N5OIN, of Denton, Texas became a
Silent Key on March 24.

Bill had more to do with TAPR than you are probably aware. He was the
husband of long-time Office Manager Dorothy Jones, KA5DWR, and father of
long-time TAPR President Greg Jones, WD5IVD. In addition to supporting

his family's involvement with TAPR, he was a volunteer himself who
logged many hours helping with office work and sitting in the booth at
TAPR events. And, he was a good and nice man with a broad range of
knowledge and experience who was always a pleasure to be around.

The TAPR family will miss Bill, and we send our condolences and sympathy
to Dorothy, Greg, and the rest of the Jones family.

If you would like to send your thoughts as well, we've set up a special
email address -- bill@tapr.org -- and will forward messages sent there
to the family.

Please feel free to forward this message to others in the ham community.

Announcing the 2004 TAPR Digital BASH!

What?
An event for the digitally-inclined ham, featuring:
* Buffet dinner
* Keynote Address: "Open Source in the Real World" by John Ackermann, N8UR
* Informal "Birds of a Feather" gatherings
* Door Prizes!

When?
Friday evening, May 14, 2004
Doors open at 7:00 pm; dinner served at 7:30 pm
Speaker, meetings, and door prizes after dinner

Where?
Kohler's Banquet Center, 4548 Presidential Way, Kettering
(39 40.75N, 84 08.43W). From downtown Dayton, take Main Street, which becomes
Far Hills Ave., south to David Road, then east to Presidential Way. Turn south
on Presidential Way. Kohler's is on the left about 1/4 mile south. Maps
available on the TAPR web site (http://www.tapr.org/tapr/dayton, follow the
link at the bottom of the page), or at the TAPR booth.

How?
Dinner requires advance registration and payment through TAPR.
Tickets will be available at the TAPR booth on Friday, though

we strongly encourage registration <before> Hamvention. The
cost is $28.00 per person, tax and tip included.

All amateurs are welcome to attend, enjoy the speaker, and
participate in the meetings, although only those purchasing a
dinner can eat.

To register, contact:
Digital BASH
c/o TAPR
8987-309 E. Tanque Verde Road #337
Tucson, AZ 85749-9399
Phone: 972-671-TAPR (8277)
Fax: 972-671-8716
Internet: tapr@tapr.org

Visa/Mastercard Accepted

Who?
PACK*BASH is co-sponsored by TAPR -- Tucson Amateur Packet
Radio, the national leader in digital communication -- and the
Miami Valley FM Association, Dayton's packet radio club.

For more information (including maps), go to http://www.tapr.org/tapr/dayton,
or send email to tapr@tapr.org.

We are beginning to transition all TAPR mailing lists from the current Windows NT box running the dreaded
Lyris, to a new machine running Debian Linux and the Mailman mailing list software.

We are starting to export list and member data from the old machine to the new, and we hope to do the cut-over before the end of the weekend, though that could be delayed if there are unexpected hiccups. There may be some list outages between now and next Monday while we make the changes and the nameserver information updates across the net. Also, any subcription requests or changes made over the next few days may be lost.

Mailing list addresses will remain the same (i.e., <list>@lists.tapr.org). There will be a new web-based interface for managing your subscriptions; we'll post more info about that (and the URL) as part of the welcome message you'll get when the lists transfer.

We expect that basic member information -- email address, name, password, and whether you receive messages one at a time, or as a daily digest -- will transfer from Lyris into the new system. However, our apologies in advance if something goes wrong and you need to resubscribe or change your preference settings.

Finally, there will also be a new archive system starting from the transition date, but it will be a while (weeks to a month or two) before the full-search capability returns. We hope to incorporate the old archives (minus spam) into the new ones, but aren't sure yet if that will be feasible.

We will post another announcement to all the lists when the transition is complete. Wish us luck...

73,
John N8UR
President, TAPR

The TAPR mailing list system is moving from the current Windows NT box using the dreaded Lyris list manager software to a Debian GNU/Linux machine using the Mailman list manager.

The transition is happening this afternoon (Saturday) and will be complete by Sunday afternoon. PLEASE DO NOT POST MESSAGES BETWEEN NOW AND 5:00PM EDT (2100 UTC) SUNDAY! Anything sent between now and then may never see the light of day. Any membership changes you made after 6:00PM EDT Friday are not reflected in the new system.

List operations should be very similar to before, with addresses remaining as <listname>@lists.tapr.org. Several obsolete mailing lists are being discontinued, and a few are changing names for consistency.

IMPORTANT THINGS TO KNOW

Unfortunately, the list data we are able to import into Lyris isn't perfect, and there is some subscriber information that won't transfer over.

The transferred data includes the email address of all users who have selected to either receive messages individually as they are sent, or in a daily digest, but not other fields.

NOTE: Addresses listed as "index" or "no mail" (e.g., a second address that you post from, but don't want mail sent to) are NOT being carried over. The new system supports these options, but you will need to resubscribe to get those addresses included.

Your real name and password information did not transfer over; see below to fix that.

ADMINISTERING YOUR LIST SETTINGS

Mailman operates primarily via a web interface, though you can also make changes via email to "mailman@lists.tapr.org".

NOTE: All access to the web interface is via secure HTTP (HTTPS) and you need to include the "https://" at the beginning of the URL. Because we are still making the system transition, your browser will probably warn you that the certificate isn't verified or that it doesn't match the server name. If you trust us, you can click "Accept" and then you'll get into the site. When the full tapr.org web site is moved over (in a few weeks), the certificate will match and these warnings should go away.

IMPORTANT: As noted above, passwords did not transfer over. To get your new password, go to https://lists.tapr.org/mailman/options/<LISTNAME>/<YOUR_EMAIL_ADDRESS> and click the button for "Password Reminder". Your password will be emailed to you.

https://lists.tapr.org/mailman/listinfo will show all public mailing lists, and provides links to go to those lists to subscribe, manage your existing subscription, or view the archives.

To access private mailing lists, you'll need to add the listname at the end of that URL:
https://lists.tapr.org/mailmain/listinfo/<PRIVATE_LISTNAME>

If you want to go directly to your options for a given list, use
https://lists.tapr.org/mailman/options/<LISTNAME>/<YOUR_EMAIL_ADDRESS>

By the way, once you are at the options page, you can click a link that will show you (and provide links to) all the other lists to which you are subscribed.

We will post another message repeating this information from the new system when it is up and running tomorrow afternoon. Note that the web interface mentioned above will not work until sometime tomorrow when the nameserver update takes hold.

Please bear with us as we tune the system. The new machine is much faster than the old, and the Mailman software should be much better than Lyris, but we are still learning our way around with it. Patience will be appreciated.

Thanks for your support,

John N8UR
President, TAPR
